Professional Experience

Software Developer - Lowe's Companies, Inc.
June 2014 - Present | Charlotte, NC

- Agile environment
- Developed applications (plugins) for AutoCAD (deployed to ~100 user machines) (C#)
  - Designed and implemented an updater utility for the AutoCAD plugins, which was also able to update itself
  - Created unit tests for above
- Lead my team in our migration to git source control
  - Configured the repositories
  - Determined branching/merging model
  - Created training sessions for the developers
- Implemented enhancements and bug fixes to internal web applications (Java/WebSphere)
  - SQL tuning, HTML corrections, JavaScript corrections, other code corrections
- Instrumental in creating a continuous delivery pipeline for one of our Java/WebSphere applications
  - Worked heavily with our automation team to create and test deployments to mainframe (my team was the first to automate deployments to our mainframe environment)
  - Created build scripts in Ant
  - Helped convert two Java applications into Maven projects to better facilitate builds and dependency management
  - Created, configured, and maintained all of the Jenkins build jobs for our team
